FOOD FOR TOMORROW AND THE FUTURE

Thanks to the Food Security Equity Fund of Feeding America, we are working together with entities such as **Para la Naturaleza** and **TAIS** in developing innovative solutions that will help us create a more equal and fair food system.

FEED THE EARTH TO FEED THE PEOPLE Para la Naturaleza and Desde Mi Huerto

Seeds are the hope and survival of agriculture. To preserve seeds is to support local agriculture, strengthen food security and reinforce resilience after natural disasters. With this important collaboration, we support agro ecological farmers Desde mi Huerto in creating a National Seed Bank that will help us find a solution to the fragility and scarcity in the food system of Puerto Rico.

RECYCLING AGAINST HUNGER

Trito Agro-Industrial Services, Inc (TAIS)

Because we are aware that a Zero Hunger Puerto Rico requires significant changes in the structure of the food cycle, TAIS works on the last stage of the ideal cycle, composting non-consumable food, and creating fertilizer to support local agriculture. Thanks to their work, we maximize the life and usage of our crops.

MOCHILÍN'S "QUINCEAÑERO"

July was a month of celebration! We celebrated with our children 15 years of continuous work with the Mochila Alegre Program. Since its beginning in 2008, Mochila Alegre has been dedicated to distributing backpacks with easy to prepare foods during the 52 weekends of the year, to children identified with food insecurity. This summer, with both educational and recreational purposes, we celebrated four events in the towns of San Juan, Barceloneta, Cataño and Caguas.
